<p>Snowboard instructor</p>	<p>Snowboard instructor at Michigan ski resort</p> <p>Snowboarding is a fairly new sport inspired by surfing, skateboarding and skiing. In the U.S., snowboarders comprise approximately 20% of visitors to ski resorts. According to Pure Michigan, Michigan boasts about 40 areas for snowboarding and skiing.</p> <p>Warmer overall temperatures and more extreme weather events are predicted as a part</p>	<p>of climate change. This may shorten the season or worsen conditions which will reduce snowboard instructor's business. Hotels, restaurants, and stores that depend on tourists will suffer too. Especially in northern Michigan, declines in winter tourism have a significant impact on the local economy.</p> <p>To see how the professional winter sports community is reacting, check out the Protect Our Winters website founded</p>	<p>by professional snowboarder Jeremy Jones at http://protectourwinters.org/</p> <p>Also, check out the Ski Tool put out by the Pileus project by MSU at: http://www.pileus.msu.edu/tools/winterrecreation/mockup_st.php</p> <p>Learn more with an internet search on: climate change, snowboard, snow, and Michigan.</p>
