Michigan Wetlands a heritage worth saving

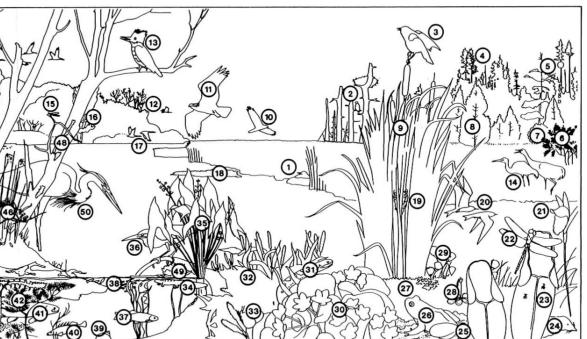

Produced by the Nongame Wildlife Fund, Natural Heritage Program, Wildlife Division, in cooperation with the Press Office, Michigan Department of Natural Resources.

Painting by Gijsbert van Frankenhuyzen

The plants and animals that inhabit wetlands are unique and often unusual and strikingly beautiful. Many are threatened with extinction. If this great variety of life is to be maintained for us and future generations to study and eniov, then wetland habitats must be protected. Yet often we are asked the question. "What's more important. homes for people or homes for wildlife?" This poster was designed to help you understand that the choice is not one of "either/or", but one of "both." When we protect the homes of the marsh wren and bald eagle, we are protecting our own homes from destructive floods and degraded waters. The Natural Heritage Program of the Michigan Department of Natural Resources recognizes these ecological relationships and the importance of helping our citizens understand and appreciate them. Hopefully, this poster will encourage you to learn more about wetlands in your community, and to work for their protection. This poster is produced by the Nongame Wildlife Fund to encourage the growing public support for protecting and preserving Michigan's valuable wetlands.

- Black Spruce
- Dwarf Mistletoe

- Kingfisher

- 20. Black Tern
- Dragon's-Mouth
- Water Shrew

- 26. Green Frog27. Sphagnum Moss
- 28. Sundew
 - 29. Cotton-grass
 - 30. Marsh-Marigold
 - Kirtland's Snake 32 Smartweed
 - 33. Baltimore Butterfly
 - 34. Red-spotted Newt
 - 35 Arrowhead 36. Green-backed Heron

- 38. Generic Minnow
- 40 Brook Stickleback
- 42. Water-milfoil
- 43. Waterweed Elodea
- 44. Spotted Turtle
- 45. Iris 46. Bulrush
- 47. Cardinal-Flower
- 48. Lichen 49. Water-lilv
- 50. Great Blue Heron

Michigan's wildlife needs your help

Look for the Loon on your state tax form and give to the Nongame Wildlife Fund.

Contributions help pay for critically important work on Michigan's non-hunted wildlife and plants, including wetland species such as

the Loon, Bald Eagle, Osprey, Sandhill Crane, Spotted Turtle, Kirtland' Snake, frogs and endangered plants like those shown on this poster. The Nongame Wildlife Fund also produces educational materials—such as this Wetlands Poster—to improve your understanding, appreciation, enjoyment, and stewardship of our rich natural heritage.
